

SHORTNESS of BREATH

Shortness of Breath marks director Zachary Lee's first feature film. In this homage to Jean-Luc Goddard's *Breathless*, the film pays tribute to both the philosophy of the French New Wave and the Film Noir history from which it stemmed.

Roadside Pictures believes filmmaking is a collaborative art and an important means of communication. Along with Central Productions, a non-profit film arts company who shares our vision, we see *Shortness of Breath* as an important landmark in Boston's emerging film community. It seeks to challenge the standards of film with its mode of production, but more importantly with its ideas.

Producing any feature film is a financial challenge. We need YOUR help to raise the \$66,000 needed to complete this project.
